

Building Classroom Climates -- 2nd Grade -- Using Tools in Support of Mathematical Thinking
Video transcript from Day 2: Activating students' sense of wonder in the use of tools for real-life situations

MIA BULJAN: How could you find out? Is there a way to test it?

MIA BULJAN: The New York statue? You think it's big enough to measure that?

STUDENT: Mm-hm.

MIA BULJAN: Could you measure this?

STUDENT: Yes.

MIA BULJAN: What would that look like if you measured that?
