00:00 You guys ready for a challenge?

00:01 Okay.

00:02 Yeah? Okay. 1, 2,3,4,5. How many do you have all together now?

00:10 15.

00:11 15! So instead of 10, you can cross off your 10. What do you have now?

00:19 All right. So now, you're starting off with 15. All right. It's Hayden's turn to hide.

00:27 What number do you see?

00:29 I see the number.... 10.

00:38 10? How many are hiding?

00:40 Uh...

00:49 Can you use your number line to help you, if you need to?

CCMP: Use appropriate tools strategically

00:53 Absolutely.

01:02 So you found--- how many did you have on top?

01:06 10.

01:07 And how many did you have all together?

01:09 15.

01:10 Okay.

01:12 5? Are hiding.

01:16 Very good.

01:19 How do you know 5 are hiding?

01:24 I know 5 are hiding because .... 10 plus 5 more equals 15.

01:36 I'm going to give you some more cubes, okay?

01:38 Uhhhh.

01:39 Ha ha! Are you ready for the challenge? Are you ready?

01:41 No!

01:43 No? Ha ha ha! Okay. Let's see how many I'm giving you.

01:50 1,

01:52 2,3,4,5.

01:57 I see the number 8.

02:01 How many are hiding?

02:04 Four are hiding.

02:06 Four are hiding. Okay.

02:07 How do you know 4 are hiding?

02:12 (note: this line is already captioned) I know four are hiding because...

02:17 8 plus.....

02:30 4 are hiding because... 8 plus 4 is....

02:44 You don't seem to be convinced of that. Go get your number line.

02:48 Okay. You seemed like you weren't too sure. Are you sure 8 plus 4 is 15? Or are you not too sure.

02:56 I'm not too sure.

02:58 Not too sure. You didn't look too sure!

CCMP: Attend to precision. Check their work. Use appropriate tools strategically.

03:00 Okay. So how can we figure that out? How many are on top?

03:03 8.

03:05 So where do you start on your number line?

03:07 8.

03:08 And what do you do? How many do you have all together?

03:13 How many do you know you have all together?

03:15 15.

03:16 15. So how are you going to figure out how many are hiding?

03:26 7.

03:27 Oh! Why don't we check? You can check! Count how many are underneath there. Move your plate. How many are underneath there?

03:37 1,2,3,4,5,6,7.

03:40 Oh! So. Can you tell us again, how do you know 7 are hiding?

03:47 Because 8 plus 7 equals 15.

03:53 Do you feel sure of that? That 8 plus 7 is 15? Sure? All right. Thank you.

03:59 What number do you see?

04:00 I see the number.... 3.

04:05 How many are hiding?

04:07 12 are hiding.

04:12 How do you know...how do you know that 12 are hiding?

04:21 I know that 12 are hiding because 15 take away 3 equals 12.

04:25 Oh! I like how you did it the other way! You started and you counted back!

04:29 1,2,3,4,5. Okay.

04:35 Please put your cubes back in your bag,

04:41 You will put the cubes and plates back in the box. And your sheet in the white basket.
