

00:00 Great job! I was really impressed. Almost everybody was really taking those sentence frames and giving me such excellent thoughts.

00:08 I was very proud of you guys. Very nicely done.

00:12 What I want to ask you is, if anyone can tell me something they learned from doing this today? Something they learned from doing this today.

00:20 Give me a private thumbs up. I want everybody to come up with an answer. I won't ask all of you to share it, because we won't have time.

00:26 But I want everyone to come up with an answer in their head of something they learned. Something they learned.

00:33 Except you, Ryan. Since you only came in the last three seconds. I'll let you off the hook.

00:36 I learned math.

00:38 Can you be more specific? What did you learn about math?

00:41 I learned ... counting math.

00:46 Counting, so you learned counting. What type of counting did you learn or practice today?

00:51 Like.... 1 plus 1 equals

00:55 Hm. 1 plus 1. Did we use 1 plus 1's today?

00:58 No.

00:59 0 plus 10... equals...10.

01:06 I learned adding.

01:10 Adding, okay! So you learned adding. What can, how many numbers were you adding together?

01:14 Three

01:15 You were adding three numbers together? Like, 2 plus 2 plus 2? Or were you adding... two numbers together, or one number. How many numbers?

01:24 One.

01:25 That was a tricky question. So did you add one number together, like 4. You really-- did you-- Give me an example.

01:33 Let's do it that way. Give me an example.

01:35 7 plus 3.

01:39 7 plus 3. So you really had two numbers you added, right? Very good.

01:43 And what was the sum we were all trying to get to today? Everybody.

01:48 Ten!

01:49 Ten. I saw a lot of different ways to come up with 10. But Katherine, you didn't come up with the sum, tell us what you did, Katherine.

01:56 What I did is 20 take away 1 equals 19.

02:02 Okay. So we didn't have 20. But we did have, how many cubes did you have. Did you have 20 cubes all together? You did at the end, didn't you!

02:12 I forgot I gave you so many! So you used subtraction. Okay.

02:18 Great thoughts. I wish we could go on another minute, but that's recess. I'd like my line leaders and door monitor!
