CECILIO DIMAS: So boys and girls, I have some clarifying questions. I would like to hear some of the changes that were made to the tables. What changes did you make to your tables? And tell us why you made those changes. Sam?

STUDENT: I changed Online Flix because it's supposed to be \$12 per month and it says add a dollar, a dollar per rental, so when it was 12, I added a dollar, so it was 13, 14, 15, 16, 17, 18, 19, 20. So then... I got my answer.

CECILIO DIMAS: Okay, so for 1 DVD, how much would I pay at Online Flix?

STUDENT: A dollar.

CECILIO DIMAS: Altogether. What would I pay for 1 DVD? Do you want some assistance? Omar?

STUDENT: 13.

CECILIO DIMAS: 13? And if I rented 2 DVDs, what would it cost me? Emily?

STUDENT: 14.

CECILIO DIMAS: And if I rented 3 DVDs? Sergio?

STUDENT: 15.

CECILIO DIMAS: If I rented... 6 DVDs? Amir?

STUDENT: 16.

CECILIO DIMAS: For 6 DVDs?

STUDENT: Uh, 17.

CECILIO DIMAS: Well, let's break it down into pieces. We have our flat fee of how much money?

STUDENT: Uh, 12.

CECILIO DIMAS: Plus 6 DVDs?

STUDENT: Uh, 18 dollars.

CECILIO DIMAS: So \$18? Okay. And what about 8 DVDs? How much would you spend there? Victoria?

STUDENT: 20.

CECILIO DIMAS: 20. Okay. Any other changes or corrections to Student A? Erin?

STUDENT: Up at the top I wrote the word "price" because at first I was a little confused about...

CECILIO DIMAS: Okay, so you wrote "price?" So this is the cost, the price? Okay. Let's go ahead and flip to the next page, for Student E, and we probably actually need to go ahead and stop here, we have one more minute before the period is over. So I'm gonna ask that you make sure that your name is written on your DVD plans packet, and you can leave it on top of your desk, I would also like to see Charles, Tricia, Danielle, and Kyle after class for a few moments, I want to thank everyone for your participation today in our taping, and I look forward to seeing you again tomorrow. Keep in mind that Bridge to Algebra Page 9 is due tomorrow. Okay?
